SUMMARY	Detail-oriented Computer Science Engineering student with expertise in programming, web development, and database management. Skilled in Python, SQL, and Power BI, with strong analytical and problem-solving abilities. Seeking an opportunity to apply technical knowledge, contribute to impactful projects, and build a career in software development.	
EDUCATION	Bachelor's Degree in Computer Science Engineering (2022 - 2026) - B.S. Abdur Rahman Crescent Institute of Science and Technology,vandalur - CGPA:9.1	
	Higher Secondary Education(2020-2022) - M.M. Hr. Sec. School, Idaikal,Tenkasi - Percentage: 87.5%	
TECHNICAL SKILLS	Programming Languages: Python, C Web Technologies: HTML, CSS, JavaScript, FastAPI AI/ML Concepts: Machine Learning, NLP Basics, LLM Integration, Data Analysis Libraries & Frameworks: OpenCV, Whisper ASR, Pandas, NumPy, Scikit-learn Databases: MySQL, DBMS Concepts Tools & Platforms: Visual Studio Code, Git, Windows	
INTERNSHIP EXPERIENCE	Machine learning Intern – Unified Mentor - Gained foundational knowledge of machine learning with hands-on practice in data preprocessing, model building, and model evaluation. - Built a web-based credit card detection model using Streamlit and achieved 93% accuracy.	
	Artificial Intelligence & Machine Learning Intern – Infosys Springboard Learned Large Language Model (LLM) concepts and developed a project using LLM integrated with FastAPI	
PROJECT	E-Commerce Website - Developed a responsive e-commerce website using HTML, CSS, and JavaScript. - Designed and built a dedicated website for showcasing and selling tote bags.	
	Emotica – Emotion Detection System (Intel – Unnati Program) - Developed a system that detects students' emotions in the classroom using facial expression analysis. - Designed the solution to identify confusion and provide instant doubt-clarification support through a chatbot.	
CERTIFICATIONS & ACHIEVEMENTS	LeaseAI – AI-Based Document Analysis System - Developed an AI system that analyzes car lease documents with VIN verification, LLM-based summarization, risk assessment, and an interactive chatbot for user queries and negotiation support. - Implemented the solution using FastAPI to enable efficient backend processing and seamless user interaction	
	Skilligy – AI Virtual Interview Platform Technologies: Python, FastAPI, HTML, CSS, JavaScript, LLM, OpenCV, Whisper ASR - Developed an AI-driven mock interview platform with resume analysis and personalized question generation. - Implemented text, audio, and video-based candidate response analysis. - Worked on backend API development, frontend integration, and AI model integration.	
LANGUAGE	- Fundamentals of C Language – Infosys Springboard - The Joy of Computing using Python – NPTEL - Database Management Systems (DBMS) – Spoken Tutorial, IIT Bombay - Participated in Smart India Hackathon (SIH) 2024&2025 Contributed to innovative problem-solving and teamwork in national-level hackathon. - Awarded “Best Poster Presentation” at the National AI Summit conducted by BSACIST. - Ignite India Entrepreneurship Program (Wadhvani Foundation) – gained skills to turn ideas into impact	
	English,Tamil, Japanese(N5 Level)
